

Cleaning before moving out

When moving out, you must carry out the final cleaning of your apartment before handing over the keys. If the final cleaning is deemed inadequate or has not been carried out at all, we have the right to have the apartment cleaned and to invoice you for the costs incurred. Check the invoicing criteria: lumo.fi/criteriaforinvoicingresidents

Final cleaning checklist:

Kitchen

- Clean the stove surfaces, back wall, oven, bottom drawer and baking trays.
- Clean the inside and outside of the refrigeration units and the back wall and gaskets of the refrigeration units.
- Defrost the refrigeration units of ice. After defrosting, turn off the appliances and leave the doors open.
- Clean the kitchen cabinets and their handles inside and out.
- Clean the exhaust air valves and, if applicable to your apartment, extractor hood and grease filter.

Bathroom and toilet

- Clean the toilet seat and washbasin.
- Clean the mirror and cabinet.
- Wash the shower walls, if applicable.
- Clean the floor drains.

Sauna

- Wash the sauna benches.
- Wash the glass surfaces on the sauna door.
- Clean the floor drains and air outlet vents.

Walls and floors

- Clean all floor surfaces and baseboards using a vacuum cleaner and a mop, or wipe them using a damp cloth.
- Remove stains on the surfaces of doors and walls.
- Clean the interior surfaces of windows. Remove dust and dirt on the windowsills and window casings.
- Remove dust and dirt on the radiators and heating pipes.

Doors, cabinets and other surfaces

- Wipe the doors and cabinets as well as their handles inside and out.
- Wipe the power sockets and switches.
- Wipe the surfaces of any other shelves or counters as well.
- Storage and other areas
- Tidy the balcony and/or private apartment yard.
- Vacuum any storage facilities connected to the apartment.
- Clear the balcony, apartment yard and storage room for movable property.

Exhaust air valves

- Remove surface dust on all the exhaust valves in the apartment as well as their surroundings without removing the valve plate or grate.
