

## **LAUNDRY RULES**

- You may only wash your own household's clothes in the laundry.
- Washing mats in the machines is strictly forbidden! Mats are too heavy and break the machines.
- Please make a reservation in advance in the book provided. - Enter clearly the number of your flat and/or your name.
- You may not take out anybody else's washing from the washing machine/tumble drier/laundry room during their reservation.
- If you want to cancel your reservation, enter it clearly in the book, so that somebody else can use the machines.
- Do not touch the safety switches or taps, they are always in the 'ready' position. However, if there is no power or water for the machines, check that the power switches and water tap levers are in the upright position.
- Please take your washing from the laundry and drying room when you are ready; they are not meant for storing your washing.
- Leave the washing machine and tumble dryer doors open after use.
- Each user, before leaving, must see to it that the laundry room and the machines are clean.
